Welcome to TESSCO.com

The most innovative and effective knowledge, transaction and service Internet site in the wireless communications industry!

TESSCO.com's powerful, integrated search and transaction engine allows customers to

- Find, compare and select products,
- Build complete purchasing worksheets,
- Obtain customer-specific pricing and availability,
- Reserve inventory, and
- Place and track their orders

It is quickly becoming the medium of choice for wireless procurement!

and and

Tips for Effective Searches

Tip #1: Enter one keyword per search field rather than phrases or multiple words separated by spaces or commas.

Tip #2: Do not use quotation marks, asterisks, percent signs or other "wildcard" characters when entering search criteria.

Tip #3: This description search queries TESSCO.com's product database verbatim based on the keyword criteria you enter. Begin your search by entering entire words into the search fields (example: "antenna"). If your search on a whole keyword does not meet your expectations, then try word fragments instead (example: "ant" for "antenna").

Tip #4: It is better to put one word in each box rather than two or more in a single box.

Tips for Effective Searches

Tip #1: Enter all or a portion of the manufacturer part number of the product you're looking for. The more exact you are in typing in the part number, particularly with hyphens, the more successful your search should be.

Tip #2: Do not use quotation marks, asterisks, percent signs or other "wildcard" characters when entering search criteria.
